MAKING A DIFFERENCE TOGETHER

**Share Food,  
Save Lives,  
Build  
Community**

ShareBite is a community-focused food sharing platform designed to reduce food waste and fight hunger. Our site connects individuals, restaurants, and event organizers who have surplus food with people and organizations that need it.

Every day, large amounts of edible food go to waste while many people struggle to get a proper meal. ShareBite bridges this gap by making food sharing easy, safe, and location-based.

Through our listings and map features, users can quickly find nearby food donations or share excess food with others. Together, we aim to build a stronger, more caring community where food is valued and no one is left hungry.

Share food. Save lives. Build community.

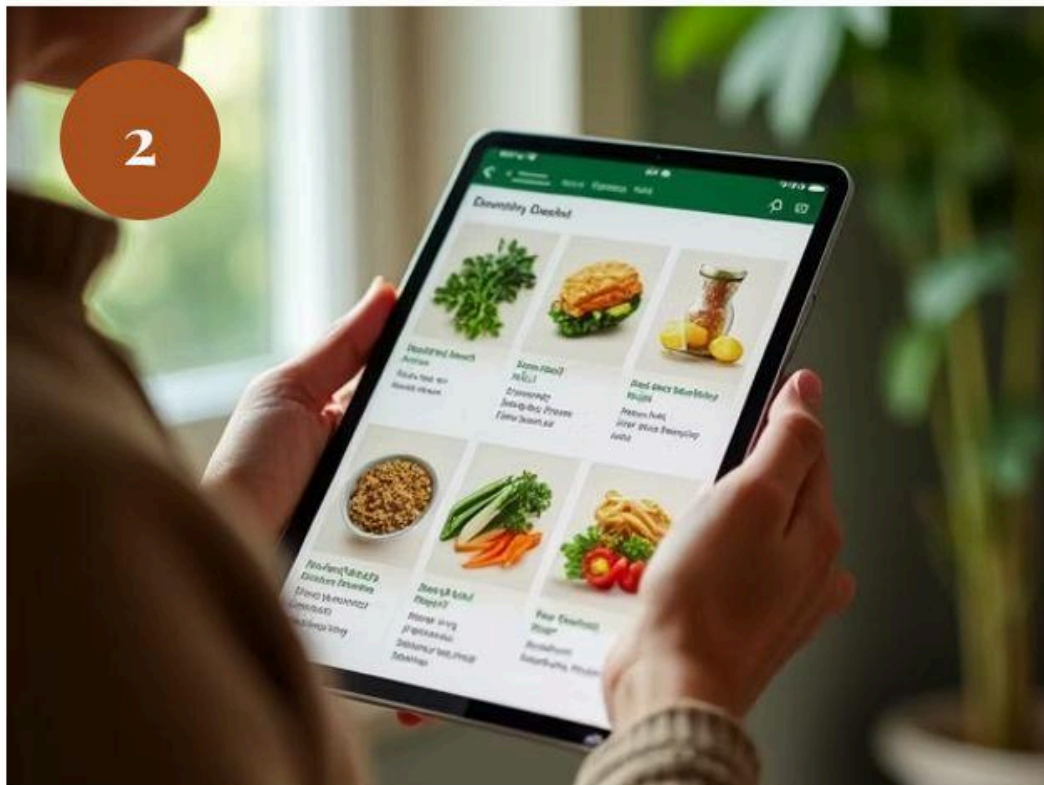

---

# How ShareBite Works

## Post Your Donation

Donors share details about surplus food including type, quantity, expiry date, and pickup location.

## Browse & Request

Recipients and NGOs browse listings, filter by location and food type, then request what they need.

# Ready to Make a Difference?

Join thousands of donors  
and recipients working  
together to eliminate food  
waste and fight hunger in  
our communities.

**Project description:🌐 Project Description – ShareBite 📄**

**ShareBite is a community-driven food sharing platform designed to reduce food waste 🗑️❌ and help people in need 🙏. The project connects individuals, restaurants 🍽️, and event organizers who have surplus food with NGOs 🏢 and volunteers 👤 who can distribute it.**

**Users can easily list excess food by entering details such as food type 🍪, quantity 📦, location 📍, and availability time ⌚. Nearby users can view these listings through a map 🗺️ and collect the food safely and responsibly ✅.**

**The goal of ShareBite is to promote social responsibility ❤️, environmental sustainability 🌱, and community bonding 🏠. By turning leftover food into a valuable resource, ShareBite helps build a hunger-free and caring society ☀️.**

**Share Food 🍲 | Save Lives ❤️ | Build Community 😊**

THANK YOU IBM
